

Earthquake Kits

All students, Preschool through eighth are required to have a “Basic Life Pack” earthquake kit. This is the most cost-effective way we have found to have earthquake kits. It takes up little room, and has a five-year shelf life, thereby eliminating the need to supply your child with an earthquake kit each year. If you bought one within the past 4 years, you do not need to buy another one this year.

The kit, produced by Farsight International, it includes a three-day supply of kosher emergency food vacuum packed in mylar, 9 packets of purified water in vacuum packed mylar pouches, one solar blanket, one chemical twelve hour light stick, and an unbreakable container. The kit belongs to you and will be returned to you should your child leave the Day School before the five year expiration date elapses. The total cost, including tax is \$25.

Please fill out the order form and return it to the school. Checks should be made payable to SSDHDS. Thank you.

Sincerely,
Estelle Workman

Earthquake Kit Order Form

Please order **1 earthquake kit for each child** you have enrolled in the school.

Child's name: _____ Grade: _____
